

ACHIEVE HEALTH: STEP-BY-STEP

Obtaining complete health is not a one-size-fits-all approach as it has to be individualized specific to your unique health status. Despite your current lifestyle choices, we can aid you in obtaining complete health. A healthier body inevitably results in an altered lifestyle.

STEP1-ANALYSIS

Analyze the status of all body functions to identify the real underlying problems you are facing and the risk of getting specific ailments. Continuous monitoring of your health status will also indicate any nutritional shortages, identify what supplementation is needed, how much and when.

* We enable the layman to analyze & understand their own health status!

STEP2-THERAPY

A treatment strategy needs to address the real underlying problem (that has manifested itself as a symptom) without invading natural organ and gland function. By using such a strategy you eliminate the need for medication that is alien to the body and creates side-effects. This is the optimal therapy approach for complete health and wellness!

*A therapy that is suited to ANY person's lifestyle as treatment is carried out while you are sleeping.

STEP3-HYDRATION

Water is a source of oxygen for better cell energy (as much as 30% more oxygen) to create better cell communication and organ functionality, resulting in a stronger immune system. Spring water is much more energized than filtered and tap water, and has far reaching health benefits.

* We have your daily hydration solution!

STEP4-MENTALPROGRAMMING

By now you probably know that your beliefs are created by your upbringing and either limit or enhance your natural ability. This mental programming replays contentiously to shape your perception. Your mind is strong enough to alter your health status and it has been well documented in conventional medicine research, known as the placebo effect.

* We enable you to reshape your mental programming.

Conventional therapies are extremely expensive and YOU PAY with side-effects.

Alternative medicine sometimes leads you down the wrong path due to a lack of understanding.

Where's the middle-ground?

ENTERING THE WORLD OF SOUND

Sound has a measurable and distinct vibration.

SOUND INFLUENCES YOUR ENVIRONMENT.

Sound can change your environment. Watch the video on how flames are effected by sound.

Just see the effect of sound changing the environment with a visible manifestation. Everything within our environment and our bodies react or respond to distinct sound vibrations.

Using this scientific fact, it becomes very clear how Focused Ultrasound is able to rejuvenate the body to regain health.

WHY DOES SOUND IMPACT YOU?

Sound's distinctive vibration manifests visually and this manifestation is called resonance.

NASA records planetary sound frequencies to identify their composition. They determine this through sound which is called vibrational resonance. In the same manner, by recording the body's sound vibrations we have the ability to analyze and report on the cells' and organs' functionalities and stress levels.

The sound vibration produces the real and immediate health status of cells and organs long before conventional blood tests can identify anomalies. By using the distinctive sound vibration we have the ability to guide the compromised resonating sound vibrations of cells, organs and/or functions to regain health.

If music has an effect on the body's vibration that changes it's chemical composition it will manifest in your mood.

Just imagine how powerful Focused Ultrasound can be on your health.

For the entire family.

WHAT IS FOCUSED ULTRASOUND?

It is the reshaping of distinctive sound vibration transmitted to stimulate and guide cell function back to health.

INTRODUCING CELL RESONANCE FOCUSED ULTRASOUND

Ultrasound is a non-audible sound that is shaped to the resonance of the cell. By transmitting the distinctive sound vibratory resonance it will impact cell function which manifests into complete health.

1. Analysis (Quality of Health Analyzing Kit)

Record and report on distinctive sound vibration transmitted by stressful cells associated with disease to create a meaningful strategy of therapy.

Nutritional shortages experienced by the cells are also expressed. The easy-to-understand report gives you access to a bi-weekly (every 2 weeks) comparison to monitor and evaluate progress.

2.Therapy(Royal Vibe Focused Ultrasound)

The indoctrination of the cell resonance to obtain correct and optimal functionality is mostly done while sleeping.

With medical history and recorded cell vibration, an individualized ultrasound prescription is generated manually in Germany by CellQuicken's medical division.

3.Hydration(Enviro vibe water restructuring)

The water you drink can be energized by stripping the negative bonding by introducing unique sound vibrations for better hydration within the cells to enhance cell communication and oxygen uptake.

Water molecule bonding is created by the magnetic fields of the positive and negative ions determined by the energy vibration.

4.Mentalprogramming(brain vibe)

Brain power is a mental belief and perception created by neuropathways that can be rewired to influence your potential for health, wealth and happiness.

Neuropathways form your belief system and frame of reference. If you believe you cannot achieve or perform, you are probably right, as the Neuropathways withhold the ability to perform or achieve. The BrainVibe will stimulate your set limitations by reprogramming your mindset.

THESE ARE COMMON BUT RELEVANT QUESTIONS

We isolated these few questions to be addressed intensively as it is important enough for you to make an informed decision. We do not support hasty decision-making but rather educated decisions as this is your or your family's health at stake.

Do not make ANY decision unless you have the real facts and you are treating the underlying problem whilst addressing the symptom and most importantly, without creating further damage.

QUESTION 1

WHY IS THIS NOT PRESCRIBED BY MY DOCTOR/KNOWN BY MY DOCTOR

The same reason why less than 1% of doctors know that the available test since 1978 affords them the ability to compile individualized prescriptions as to how much and when medication must be consumed.

How many times have you heard that the same medication would give a side-effect to some and not to others? This is a clear indication that it is over or under medicated due to liver metabolism that can be identified with a DNA test. There's no dispute that this test is in the best interest of the patient, and we find ourselves questioning why only 0,0001% of doctors aren't using this test for more effective treatment of patients.

QUESTION 2

IS FOCUSED ULTRASOUND A PROVEN SCIENCE?

For any new medical approach, there are extreme amounts of research and development that takes place and for FDA (Food and Drug Administration) and medical departments to approve a new protocol, thorough research required.

QUESTION 3

DOES IT WORK?

The overwhelmingly positive responses and feedback from patients and clients are enough proof. Not all our clients are comfortable with video testimonials, and hopefully you are comfortable enough to share your testimony on video to help the skeptics and naysayers not to reach the point of regret.

QUESTION 4

IS IT SAFE?

To evaluate if a product is safe, the best way is to ask if the owner/inventor/developer uses it for themselves and for family members. We know medication known as Big Pharma is basically owned by the Rothchild family and the surprising fact is that the founder, Mr Rothchild, is known for not having used his own products EVER!

Bill Gates is pushing vaccines for the world and whilst his children were under his care, he publicly denied that his children had vaccines, yet today he is the biggest advocate and investor for vaccines whilst promoting the reduction of population.

Heart Conditions

Serious conditions require serious actions! Focused Ultrasound is transforming the medical industry and for good reason. When conventional medicine can't help people battling with heart conditions, there is comfort in knowing you still have options, and there is a solution. Listen to these two CellQuicken clients share their experiences. Hope never dissipates – should you choose to find it! They did.

Diabetes

For many, diabetes is a debilitating condition that requires ongoing, daily treatment/s. Too often, these treatments are short-lived, and never treat the cause of their diabetes but rather controls or attempts to control the effects of their diabetes. Over the years, people with diabetes develop resistance to their medication and have to keep increasing their medication to achieve the same result. Shouldn't you reach a point where you think, perhaps it's time to relook this condition and find a way to treat the cause of your diabetes and not just try to survive its symptoms? This is what CellQuicken does: it focuses on the cause or origin of the diabetes, so as to eliminate the dreadful side-effects you are currently drinking medication for.

Take a look at these CellQuicken client's stories: one even stopped injecting and treated himself with CellQuicken alone – the end-result will astound you.

Blood Pressure & Cholesterol

Have you ever wondered what caused your high blood pressure and cholesterol? Before deciding on treatment shouldn't you address this cause first so that you can prevent future health risks? Why are we jumping to drink all types of medication just to suppress the symptoms that never once deal with the cause? Just like most of our clients, you can use this incredible product to treat your blood pressure and cholesterol AND use it to ensure the health of your whole family!

Asthma

If asthma is an inflammatory disease of the airways to the lungs, shouldn't the first question be: what causes this inflammation and secondly, how do I treat this inflammation to prevent an asthma attack? Focused Ultrasound hones in on the problem areas within your body and aids recovery. Hear Dawn's story in her own words and her road to health and well being.

Stroke Recovery

The damage caused by a stroke is distressing, but there you have options; there is a solution and there is always hope. Take comfort in the following CellQuicken client's personal stories and their road to recovery. Don't become disheartened.

Cancer

Conventional cancer treatments work on the symptom, which is the cancer, and NOT on the cause of your cancer. You have to strengthen your immune system and enable it to fight-off these cancer cells, even more so if you are undergoing these treatments as your immune system is severely compromised! These personal stories below may tug at a few heartstrings, but within their message lies a story of hope, survival and a strong will to get the body healthy again.

Sinus

The benefits experienced during the usage of CellQuicken is long-lasting. Why? This is because CellQuicken is focused on resolving the origin or cause of the ailment using the latest ultrasound technology. In fact, our clients make use of several programs to treat an array of conditions and acquire complete health and well being.

Parkinson's

Listen to the couple's personal story below and what they experienced after using CellQuicken. Every small step achieved, over a long period, becomes huge milestones. Celebrate every milestone. We are driven to change peoples lives – that is why we do what we do!

General Wellbeing

Whatever ailments or conditions you are faced with, you can take comfort in knowing that there is a solution with your CellQuicken device. Our goal is to help you achieve lifetime health, not a temporary so-called quick fix (which don't exist). Headache? CellQuicken! Nausea? CellQuicken! Sore throat? CellQuicken. And so the list goes on...

Pain

Nobody wants to struggle through life with pain. A Lot of our actions are dictated by or drive to avoid pain at all costs. If we experience pain we drink medication. If it doesn't improve we see doctors or specialists and consume stronger medication. If it still doesn't improve we go for medical procedures. But when do we reach a point where we say "enough," now nit is time to find the cause of this pain and focus on fixing the problem first, which ultimately results in the treatment of the pain.

Kidney/s

This client's kidney function increased from 8 to 11% after he started using CellQuicken, and it didn't stop there. His eyesight improved so much that he was actually able to see someone else, something he was never able to do before. CellQuicken wants you to have hope, and to know that we are there to change your life by changing your health.

Animals

Yes, a positive mindset is critical, but seeing how CellQuicken actually improves animal's lives was a huge eye opener for some of our clients. Ultrasound benefits the health of all living things – not just humans.

Health and Energy

Vitality is key, nobody wants to feel sluggish and drained, as it steals your joy and ability to thrive at life. Life is about creating memories, spending time with those we love, and embracing all aspects of life. How can we do that when we don't feel vibrant? How do we embrace life if we can't achieve optimal health? Should we be drinking an unending list of supplements, specific foods that cost a fortune just to feel slightly better?

No.

Dementia

Dementia in any form is a scary disease for most, especially for the loved ones of someone suffering with it. Listen to this incredible story of a man whose wife struggled with dementia and how CellQuicken Focused Ultrasound drastically improved her condition.
